Organization Description

Hope Community Church is a new church plant that exists to bring the hope of the Gospel to our community, nation, and the world. Our vision is to be a church that equips, mobilizes, and serves people so they can join with Jesus Christ in “making all things new” (Revelation 21:5). In a world that seems to be losing hope, we believe the church is to be an instrument of hope to the world. We envision a contemporary, multi-generational church that is outwardly focused, living on mission for God in the light of His hope. We want to be a church that measures our success not by our seating capacity but by our sending capacity as we send people back into the community and the world to share the Hope of the Gospel.
