

Handy Checklist and Calendar for Internship Preparation

- Complete the Internship Information Session by March 17, 2014. If you miss this deadline, you won't be able to complete internship next year.
- Read through the Internship syllabus on the Supervised Ministry website. This is likely not your actual course syllabus, but will acquaint you with the course format and requirements.
- Find a context for ministry
 - If you don't know where you want to complete internship:
 - Contact Roni Okubo in the Supervised Ministry office before April 15.
 - Contact your local denominational representatives/leaders for possible suggestions
Check Northern's Ministry Opportunity page for possible internships.
 - Network with seminary students, current and past pastors, lay members, etc. for ideas on where to serve during internship. You may need to create an "elevator speech" and clearly articulate what kind of experience you're looking for in an internship.
 - Once you've located a context, set up a meeting with the potential Internship Supervisor to review the requirements. Discuss dates for starting and finishing, position description and your ideas for what you'd like to learn during internship.
- Complete and turn in Appendix A & your potential supervisor's Application to Mentor by May 2, 2014. If you miss this deadline, you won't be able to complete internship next year. Students who wish to apply for summer internships also need to turn in Appendix B: Creating the Learning Covenant.
- Pre-register for Internship I & II by May 9, 2014.
 - Make sure to pre-register for the same course section for each term.
- Begin working on developing your Learning Covenant once you know your site and supervisor are approved. Make sure you give yourself and your supervisor enough time to develop your plan well. Remember to contact your supervisor early enough to get time on his/her schedule. They may not be able to meet with you the day before your Learning Covenant is due.
- Inform your Internship Supervisor to expect information about a training date in October. The training will be 2-3 hours in an afternoon.
- Turn in your Learning Covenant by August 1, 2014. If you miss this deadline, your final grade for Internship I will be decreased by one point each day it is late.
- Comments for improvement on your Learning Covenant will be given by August 15, 2014.
- Update your Learning Covenant (if requested) and turn in the revision by August 29, 2014. If you miss this deadline, your final grade for Internship I will be decreased by one point each day it is late.
- Start your internship in September.
- Attend your Internship class.
